

# All about... AF

## Making sense of Local AF Pathways through interactive Case Studies:

- Diagnosis
- Stroke risk assessment
- Anti-coagulation and bleeding risks
- Rate and rhythm control

Developed and delivered by a **local** faculty

- GP
- Cardiologist
- Consultant Pharmacist
- Specialist Nurse

- New AF QOF 2012
- Understanding stroke risk
- Meet your QP11

- Difficult treatment decisions
- When to refer?

- Who is responsible for anti-coagulation?
- New drugs v Old
- Older people and falls
- Does Aspirin still have a role?
