

Stroke Network Activity in SWL

Workstreams **Prevention** **Acute** **Rehab**

Activities

- TIA pathway and referral process
- GP education sessions
 - TIA leaflet translated into 7 languages
 - Repatriation protocol
 - Stroke patient handbook
- ESD Guidance
- Community rehab review
- Discussing how implement Stroke patient reviews
- NPP -Self management programme – Bridges
- Sharing good practice - Physiotherapy Stroke competencies workbook
- Supporting development of OT and SALT stroke competencies workbook

Visit **Accelerating Stroke Improvement** page at <http://www.slcsn.nhs.uk/stroke-accelerate.html> for the slides and metrics shown at the meeting.

- **Key messages from Network**
- **Ensure any data collection systems you have or are planning on setting up will be able to capture the measurements required for each domain.**
- **Discuss in your teams if and how you can meet the metrics especially in the rehab domain**
- **Start preparing a short Business Plan for any ideas that may require funding to initiate changes or improvements so that these can be submitted to the Network (once the funding process has been determined) ensuring you demonstrate how it meets QUIP and the domains in ASI**
