

The London Stroke Model

Better access.

I was assessed straight away. Within an hour of admission I was given the drugs I needed and I was back to normal the following day. The care was excellent, efficient and considerate.
--HASU patient

Greater efficiencies.

The speed with which I was tested and then thrombolysed was amazing. After my treatment I am a great fan of HASUs.
-- Patient, University College London Hospital

Improved patient outcomes.

The care Dad received here was been excellent and the staff have been wonderful.
-- Relative, Bart's and the London Trust

Better access. Greater efficiencies. Improved outcomes.
